REMARKS

Applicant notes with appreciation the confirmation of Allowability in the present case by way of the Notice of Allowance of January 13, 2010. In a review of the Examiner's Amendment there was noted a minor typographical error (the dropping out of "in" within the phrase "for use in intradermal coloring" in claims 1, 33 and 39. Accordingly, the present Amendment under 1.312 treats all of the Examiner's amendments as having been entered while adding in the noted dropped out "in" within claims 1, 33 and 39. Also, a minor error was noted in dependent claim 31 wherein "needle" should have read "needle device". Thus, the only revisions made is the addition of "in" within the noted claims 1, 33 and 39 as well as a minor correction in claim 31 such that entry is considered applicable.

Applicant has not earlier paid the Issue Fee and looks forward to confirmation of entry of the present amendments in due course.

Respectfully submitted,
